August 2017 - January 2018 (6 months)

## PROJECTS

---

### 01 ZUGUBEE

Demo :  
<https://dharmice.bitbucket.io/zugubee>

Zugubee is a grocery app developed by kustard technologies for their client. I have contributed in making the case study for this app which is showcased in kustard technologies' website.

### 02 DAKAAR

Demo :  
<https://dharmice.bitbucket.io/dakaar>

Dakaar is a food recipe app developed by kustard technologies for their client. I have contributed in making the case study for this app which is showcased in kustard technologies' website.

### 03 PLAYER.JS

Demo :  
<https://github.com/dharmick/player.js>

Player.js is a custom HTML5 video player built in Vanilla Javascript. This project was inspired from a youtube video and includes many customization options.

### 04 MAKERMELA

Demo :  
<https://makermela.com>

Makermela is an annual fest organized by Riidl Somaiya. I contributed as a web developer and maintained their website for nearly 6 months. My profile included updating their website whenever required.

### 05 BLOODBANK MANAGEMENT

Demo :  
[https://github.com/dharmick/bloodbank\\_management](https://github.com/dharmick/bloodbank_management)

College project for TY. B.Tech written in php and mysql
