PROJECTS

01 ZUGUBEE

Demo :
https://dharmice.bitbucket.io/zugubee

Zugubee is a grocery app developed by kustard technologies for their client. I have contributed in making the case study for this app which is showcased in kustard technologies' website.

02 DAKAAR

Demo :
https://dharmice.bitbucket.io/dakaar

Dakaar is a food recipe app developed by kustard technologies for their client. I have contributed in making the case study for this app which is showcased in kustard technologies' website.

03 PLAYER.JS

Demo :
https://github.com/dharmick/player.js

Player.js is a custom HTML5 video player built in Vanilla Javascript. This project was inspired from a youtube video and includes many customization options.

04 MAKERMELA

Demo :
https://makermela.com

Makermela is an annual fest organized by Riidl Somaiya. I contributed as a web developer and maintained their website for nearly 6 months. My profile included updating their website whenever required.
